## Summoning For Dummies

By Benjamin Loucks  
~ Daily Bull ~

So, you've decided that your classload is too much. Perhaps that chemistry homework is catching up on you this early in the semester. Maybe the bowling class you took for Phys Ed is just too strenuous for your liking, as your idea of exercise is running through instances and raids on WoW. Maybe that darn Lode writer got a major story's details completely wrong again and you must have your revenge. Whatever your reasons, you need someone or something to do your work for you or exact retribution upon your enemies. But what should you do?

Turn to the ancient art of summoning, of course!

In an unofficial poll of one student at the EERC, the results show unanimously that summoning is mistakenly attributed to flashy animations

## Why Mad Max is Awesome

By Nathan "Invincible" Miller ~ Daily Bull

You wanna know a secret? Mad Max is awesome. Now it's not a secret anymore. But that doesn't negate the fact that everybody's favorite post-apocalyptic hero, Max Rockatansky, is the shit. Just ask everybody he killed in the three movies he has starred in. Oh wait, you can't. They all died when Max totally did something epic and blew them up with his car or some shit. Man, wow.

So basically the Mad Max trilogy of movies is the best trilogy of all time. It's even better than Star Wars or Lord of the Rings. Those are just nerdy fantasy movies. Mad Max is the real deal. You wanna see what the world will look like when nukes start flying and there's no more oil or food or order and the only survivors are sex-starved psycho brutes? Mad Max.

\*Spoiler Alert.\* Alright, now I'm gonna delve into some of the awesome details about how fricken awesome amazing the Mad Max movies really are. I mean, me talking a mean game about them

does not do justice until I properly illustrate their true greatness through gory detail, intense action sequences, and hot hot hot sex scences. Two of those are not what they seem, but it doesn't matter.

MAD MAX ONE! is really just called Mad Max. Made on a budget of less than what Mroz makes in one year, the original Mad Max introduces our hero, Max Rockatansky, before he is Mad. He does get mad though, when he is forced to crash his police cruiser into other cars or bikers or campers or whoever gets in his god damn way. There are only two explosions throughout the movie, but plenty of people are killed. Even though it was pretty choppy, it still made tons of money. More than Mroz has - ha!

MAD MAX 2: THE ROAD WARRIOR! is the second movie in the series and is the most violent one in my opinion. The movie opens with Max driving around like he always does, looking for heathens

## Nathan Wonders: Snow Removal

Brought to you by Nathan "Invincible" Miller

Like many other college students, I don't want to get buried alive or wanted a job that I could make a become a part of a snow statue, bit of spending money to buy im- you better run!"  
portant things like candy and Poké- Unfortunately I don't think MTU- mon cards. But I didn't want just actually hires students for this pres- any job. After months of hunting tigious job. I can hardly imagine long and hard, I finally found my dream job: MTU Snow Remover.

It'd be perfect: I get to sit in a big truck or a shiny yellow front-end loader all day while scaring the bejeesus out of students who get in my way. I can imagine what those lucky guys who do get to drive them think as they haul ass around campus. "I've got a ton of snow in my dumper and if you

Haha take that sucker! I mean, oops.

why - I mean, I'd be the perfect candidate. Heck, I'd drive the loader and the dump truck on the same job if they gave me a chance. Maybe becoming an MTU snow remover is like driving the Zamboni - you have to work your way up the chain and by the time you're 55 you'll be high enough to get the keys. Gotta start somewhere!

to slaughter for making him Mad. He catches some random helicopter freak who shows him a random oil refinery where the people are retarded and go outside and get slaughtered by bandits. Eventually after lots and lots of random killing, smashing, and explosions, Max helps everyone escape by driving a semi truck away while simultaneously slaughtering all the bandits with the help of some random feral child.

Cause they're cool like that, they also blow up the oil refinery in the coolest real life explosion I have ever seen. The whole movie can be summed up by slaughtering, random, and more slaughtering.

MAD MAX BEYOND THUNDERDOME! is like woah. WOAHH. Except for the parts with the stupid ass Peter Pan children, this is my favorite one. I mean, there is: A. smashing, B. Thunderdome, 3. a midget riding a giant,

and four, an abrupt ending! You know what that means! MAD MAX 4: THE RETURN TO AWESOMENESS! They are actually planning this – Fury Road. Unfortunately it won't have Mel Gibson as Mad Max, because he is passionate for Christ now and not slaughtering baddies. Lame.

Convinced that Mad Max is awesome yet? Compare the names of some of the Mad Max villains to ones from other movies: The Nightrider, Toecutter, Johnny the Boy, Bubba Zenetti, Mudguts, Cundalini, Lord Humongous, Wez, Smegma Baddies, Gay-boy Berserkers, Aunty Entity, Master Blaster, Ironbar, and the Collector. Crazy. Who else would be badass enough to call themselves Toecutter and then savagely run over a woman and her child? Obviously someone who is very awesome, which only happens in Mad Max.

So get your hands on a copy of these movies and see for yourself: Mad Max rules. 🍌

in Final Fantasy games. Unfortunately, this sort of publicity has harmed summoning more than helped it, because now very few people know how to accomplish the feat of calling upon the denizens of other planes to do things so they can slack off. However, a reliable source which shall remain unnamed (as they do not want anyone to summon something to steal their hooch) has given me the implicit and careful instructions that you MUST follow to call upon your own personal servant from planes unknown.

First, you must learn how to draw a magic circle. This is important, as it protects you from your targets that

OMG MAGIC MISSILE!

get the brunt of your summon's wrath such as Sharpie marker on their faces or shaving cream on their hands. Take a vial of powdered substance - I highly recommend powdered magnesium for effect, but the dried blood of babies will work in a pinch - and pour it in a circle around you. Make sure that the edges touch, as any gap might cause horrible energies to seep in and vaporize you.

Second, you must obtain a sample of your victim: A portion of your chem teacher's hair, the pinky of someone who tore it off during bowling practice, or a treasured Sword of a Thousand Truths from the Lode writer in question, for example. After you do this, place the object (or the object on the flash drive you so conveniently pocketed) outside the circle and speak the magical words in the Book of the Dead. Make sure you speak the EXACT syllables, or you may accidentally summon the army of dead-ites which will come after your castle and force you to use your chainsaw hand to... Wait... Anyways.

Once you follow these instructions, you should summon your own awesome servant! First off, remember that your servant may require a good cigar, as it may remind him/her/it/Richard Simmons of home. The best place to get one of quality is from Jeremy "Mr. Sunshine" Loucks, as his complexion and facial hair make him look like a Cuban and we all know Cubans make the best cigars. From there, command your minion to take care of things! Never mind the walls awash with blood, as minions need to eat too.

Hopefully, if you did everything correctly, the problem you summoned your minion to fix should be fixed very shortly. Campus buildings should be burning, your bowling scores should increase dramatically through deals with beings that have powers beyond your imaginations, and the Lode will have correct and factual articles. Well, maybe scratch that last one. There are some things that even other-planar beings just can't fix. 🍌
