Nature's Way

By Lauren Allen ~ Daily Bull

There's a Bloodhound song called Bad Touch, and I've had it stuck in my head for days now. Well, that and how much I want McDonald's, but that's another story. Anyway, the chorus of the song is "let's do it like they do on the Discovery Channel." Inspired by this song, I made a step-by-step guide for guys to imitating the Discovery Channel.

First: Get her attention. This can be done by using bodily fluids. You could pee on her, but I think you should imitate the hippo and go the classy way: spin your tail like a fan while pooping so it goes everywhere. Don't have a tail? Use a fan. You could also paint yourself metallic green and blue and claim you're a peacock, but this will have less of an effect if you're clothed, and if you aren't, seriously. It's cold out. Put some clothes on before Public Safety sees you. Or anyone who hap-

Valentine's Day in the White House

By Liz Fujita ~ Daily Bull

This last Saturday marked a holiday that people tend to genuinely love, or truly hate with the fiery, intense passion of George Bush at a shoe store. That's right, I'm talking about Valentine's Day - pink! Flowers! Candies! Cooing! LURVE.

"I think everyone should get a chance to be loved," said President Obama, who gave out personalized gifts to many of his acquaintances in an effort to boost morale and continue to prove what a nice guy he is.

For his VP, Obama ordered a red, heart-shaped yo-yo. The toy was monogrammed: *To Joe, for your office - because I'm not giving you anything else to do this term. Love, Barack.* Biden was unavailable for comment, but a representative disclosed, "Joe is very upset. He had his heart set on at least licking a few envelopes."

Senator John McCain revealed in a press conference that the President graced his Valentine's Day with customized candy hearts. Messages included "Try again in 2012," "gg n00b," "Never mind, make it 2016," and "PWD." McCain said he didn't understand the gaming lingo, but swore to make his best effort to free the North Dakotan prisoners of war.

For a loyal friend in the CIA, Obama ordered a toilet-sized (but not toilet-shaped, thankfully) vase of roses. This person, whose identity cannot be revealed, grew so outraged that he/she/it threw that vase to the ground, stomped on the flowers, and shrieked, "WHAT

ARE YOU DOING, MR. PRESIDENT?! THEY'LL FIRE ME IF I SHOW EMOTION!"

The shocked President slowly gathered up the flowers, handing one to each member of the House of Representatives to "make them feel like someone cares about them."

In a service to humanity, the President sent a large box of cream-filled chocolates to Sarah Palin. "If by cream you mean gorilla glue, then yes," he mused. Palin's response: "Mmmppphhhrrrrkkk"

Obama said one of his greatest challenges was deciding what to give Secretary of State Hillary Clinton. Ultimately, he ordered a dartboard with sexually transmitted infections rather than numbers. The long, hard darts were inscribed "BILL" - if the projectiles penetrated deep enough into the board, it would call out the name of the illness. "It was a bit strange at first," said Obama, "since Hillary's office is just down the hall. But

Nathan Wonders: Adrenaline Shots

Brought to you by Nathan "Invincible" Miller

Ok. I found out how everyone in the whole world, except maybe anorexic people, can be invincible: Adrenaline shots. Imagine

your ordinary old EpiPen, but instead of a teeny tiny dose (.3 mg) of adrenaline, it'd have a couple grams of the stuff. Then all you'd have to do is shoot it straight into your arm or heart and you would be good to go. Bring on the trumpets!

Doodly doo! You know what you could do on an adrenaline shot? Everything. Pinned under a semi-truck? Pick it up and throw it. Need a shortcut to the copy machine? Smash down a wall. Don't like your friends telling you that you should lay off the wonder if that guy on the corner

adrenaline shots? Rip them in half. Can hook me up... ☺

The possibilities are practically

Course, there are a few side effects resulting from taking straight adrenaline. Your muscles would kind of tear themselves to shreds, but you wouldn't need them after you just tied a tank barrel in a knot - you win. Your heart might explode too. And you'd feel no pain, and probably no emotion either. But when everything looks breakable, there is no room for being sentimental. Everything must go.

I've grown used to working with Microsoft Sam yelling out 'gonorrhea' every few minutes."

For his family, President Obama bought flowers, necklaces, earrings, and vinyl records of classic love songs. He even remembered flowers and chocolates for the new dog, which, upon eating the candies, promptly died. Oops.

pens to have forgotten their eye bleach at home.

Second: Woo her. Bring her shiny things. For you CS majors, think of things other than Inu Yasha posters and mech figurines. Think pop can tabs and pretty blue pebbles, like birds or raccoons. Some birds even have a contest: whoever give the female the biggest, bestest pile of shiny wins. Surely you can do that just with stuff lying around your room.

Of course, you could also throw paper balls her way, like the lovely people in the cubicle next to the bull office did. You could also just tell her there aren't many girls at Tech, so she would be helping to propagate the species. However, if that really worked boys would get laid much more often then they do.

Third: build a nest/burrow/den with her. It should be large enough to fit you, her, and a few other people inside. This way you can either have an orgy, or room to move around in. This may seem like a lot of work, but you're looking at it the wrong way. Look at it not as work, but as an excuse to make a blanket fort, or a snow fort if you want it to be closer to the real thing. Besides, if she has a litter, you'll have to store them somewhere.

Fourth: distract her. This is very important. If she's really a spider, she might turn on you and decide to kill you during sex. Some people are into that, but normally not when they're the victim. Food should be

a sufficient distraction. A male spider would bring a fly. I suggest a double cheeseburger meal, plain. This should distract her long enough to have sex without getting killed. (Note: I don't suggest this. MI law does state that surprise sex is rape.)

Finally, and most importantly, DON'T GET EATEN!! Heard of black widows? Preying Mantises? Shrews? Yeah, they often eat the males after sex. Do you really want to be known as the guy who became a post-coital snack? No, you want to be the guy who died doing something incredibly awesome, like

being in an explosion caused by the awesomeness of you fixing the global economy with duct tape as you develop the cure for all disease. Be safe and bring extra shinys, or better yet, extra McDonalds.

I found this while looking up NOS on google. I'm still debating whether it's cool or not.
