Why Casts Rock

By Lauren Allen ~ Daily Bull

So, recently I broke my hand. Nothing serious, it's healing nicely, thanks for asking. The doctor seemed to be concerned over my mental health. Seems my response to her telling me it was broken shouldn't have been "Cool! Can I have a copy of the x-ray? This is going to make it hard to type, isn't it?" But seriously, having a cast on your hand is great!

1. **Back-handing.** Think about it: you have a hard shell around your hand. This gives you an advantage in combat. While the flesh bag is beating futilely at you, you can destroy them with a few swift blows and viola! Instant slave.

2. **Household repairs.** Your new slaves are using all the hammers to finish your fortress. You need to nail up your Spock/Kirk slash poster, but don't want anyone to know. What are you to do?

Why Being a Warlock Sucks

By Jon 'Big O' Mahan ~ Daily Bull

Now, most of you are all thinking, "Warlocks have it so easy!" And you'd be kind of right. Sure, if anyone gets close to us we can just fear. If we want we can come back from the dead, and well, even if we're dead we still might kill ya. So then, what could possibly be the problem? Believe it or not, there are a ton of them, and here are just a few!

*Why doesn't anyone trust me? I always thought I looked nice, approachable-like... *sniff**

1. **People don't trust you.** If you saw someone covered in blood with a demon at their side, and knew that they could kill you slowly, and probably enjoy it, would you be likely to trust that person? Probably not. Nobody trusts a warlock. Most people don't even like us. They just tolerate us... 'cause we are leet dps.

2. **Demons.** Most people think that having your own little pet is cool! And it is! If it's King Bangalash, or one of the ravasurs. However, warlocks can only

have a small number of them. And all of them, with the exception of the succubus, hate you. The succubus however... just wants to get to 'know' you (and I'm sure some of our readers wouldn't mind that at all). Every last one of them seems to want to kill you and the only reason they don't probably has to do with that whole enslavement thing, since many probably could kill you.

3. **Pajamas.** Some people would kill to be able to wear pajamas all day, and let me tell you, doing it, and wanting to do it, are completely different. Our pajamas protect us from absolutely nothing. Sure, they give us some leet bonuses, like killer SP and tons of health, but at what cost? Anybody with a sharpened stick could hurt us. That's why I propose we be allowed to wear leather. We're already the S\$M class anyway, so why not give us the kinky black leather?

4. **You are emo.** There's no getting around it. We warlocks are emo. We like to cut ourselves, and then drink the blood for mana. I don't know how this works, but apparently it does. Endorphines must just be that refreshing I suppose.

5. **The mounts.** Sure, you think the idea is cool. Let's ride on a flaming horse! Yeah! That sounds like a good idea! Then you forget to do the math behind that one. There's the fact that one, fire is hot! Two, you're never riding said horse on saddle- no, you're bareback. Three, you're wearing cloth. Cloth + Fire = Ow.

6. **Lastly** (Because no warlock ends on 7) **your singing sucks.** Every time you try to sing, it just sounds like someone howling in terror. You can't hit any notes, and the nearest 5 people try to flee in fear from your voice. It's really rather disheartening.

Now that you're more educated about our situation, maybe you'll think twice before re-rolling to a warlock (and ruining the name for the rest of us you mage twat). 🐉

...Clever Cast from front

Use your cast, of course! Casts: For all your embarrassing decorative needs.

3. **Heat Protection.** Admittedly,

I haven't tested this beyond holding hot dishes. But I'm fairly certain (read: really hope) it's at least somewhat fire retardant, or fire mentally handicapped to be PC. This means you can put a flamethrower on your

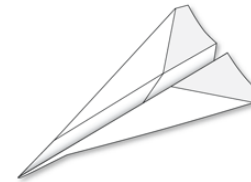

hand with slightly less risk and 100% awesome. Remember, the root of awesome is awe, as in "your followers will be in awe as you roast both your enemies and their marshmallows."

4. **Attachments.** Why stop at flamethrowers? You can add so many better things. How about the remote to a Giant Nuclear Ant? Instead of people exploding it with a magnifying glass, it can capture/step on them. Or, why not add a laser pointer and stuff the cast chock-full with catnip? You'd control the Earth's felines! This works on lions too, right?

5. **Warmth.** When people finally get sick of you and strand you on Vega 4, you will at least have some protection. The space bears and T-rexes will give you some heat, too. Now if you'll excuse me, I need to go find some time traveler with a torch to save me. 🐉

Look! Under There! ...Under Where?

By Liz Fujita ~ Daily Bull
with sincere apologies to Sir Elton John

They're a little bit lacy, these panties of mine-
I'm not one of those who likes boycuts or highs.
I don't have much fabric, but boy I don't care;
I'd much rather squeeze into small underwear.

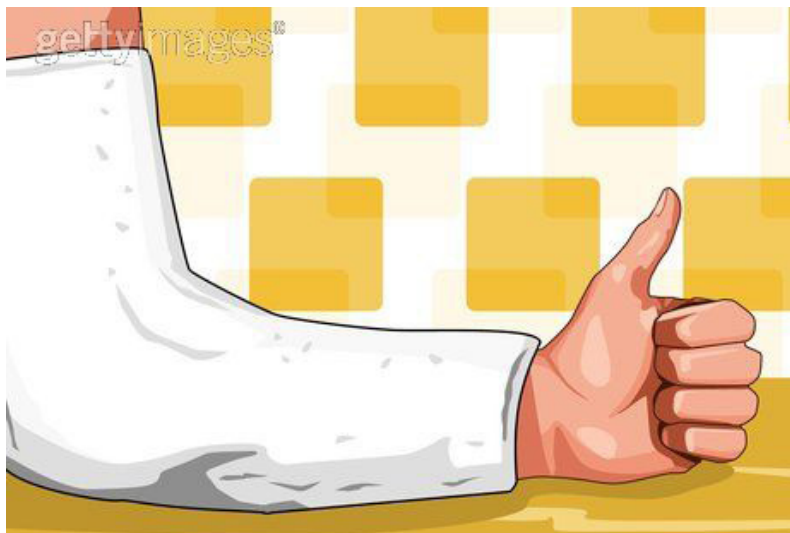

If I was a stripper, but then again, no...
Or a hot go-go dancer in a Las Vegas show, oh
I know it's not much, but they're my best underoos-
My gift is my thong and this one's for you.

And you can tell everybody that you saw my thong!
It may be constrictive, but now that it's on,
I hope you don't mind,
I hope you don't mind that I just want to say
How wonderful life is with scant lingerie.

I sat in the park, with my legs all crossed,
And a few passing joggers, well, they saw my butt floss.
Oh, my belt's been unkind while I wore this thong;
It's been creeping right up all afternoon long.

So excuse me for mooning, but wedgies must go!
You see I've forgotten how to make it not show.
Anyway, the thing is, everyone has seen
Mine is the finest ass... with string between.

And you can tell everybody that you saw my thong!
It may be bright purple, but now that it's on,
I hope you don't mind,
I hope you don't mind that I just had to say
How wonderful life is with scant lingerie!

Who knew having a cast came with so many practical uses (besides collecting signatures)? The Daily Bull is now considering taking up dangerous hobbies - with a whole staff armed with armable arms, we could take over the world!
At last! Mwahahaha!
