"I can now do whatever I want with the system. It's like I've got an awesome new power - I'm just not sure how to wield it."

~George Hotz, first hacker of the PS3

Lost in Plain Sight

By Michael Friesen
~ Daily Bull ~

Has anyone else ever done this, or does it only happen to me? When you're working with something, maybe writing in a notebook, doing a craft, playing a Game-boy, or using a tactical rifle to S.W.A.T. Flies... anything where you're holding something, really. You'll be doing that, you zone out for a few, maybe even just nodding a few winks if you didn't get much sleep last night... and BAM! Whatever you were working with... gone! And you just had it in your hands for crying out loud! Seriously, what a rip!

This has happened to me ten times a day in the past few days. It's always something important, like the book I was reading for class tomorrow. Or the folder full of important papers I've

When Snugglies Take Over

Would the real Sam Schall please stand up

We all know about the sweet innocently cute and fuzzy blankets with sleeves. These nice, extra-huge blankets are super soft and comfortable and are "one-size-fits-all," coming in various colors and patterns - from blue to red to leopard print. But these fun blankets aren't all what they seem, aside from being giant robe that you wear backward without any ties to secure it around you - so please wear something underneath if you do own one.

Boycott Snugglies. Buy Slankets.

The fuzzy blankets were once just as advertised: huge blankets with huge sleeves so you can do anything you want while wrapped in warm - use your laptop, change the channel, and even pet your dog! And now your dog does have to be left out, because they now have Snugglies for your pets, made from extra durable strength fleece cloth to resist those daily wears and tears that pets have a habit of putting in everything.

But now Snugglies aren't those sweet little innocent blankets that we've all

seen in commercials on television and in newspaper ads. Those sweet blankets are now built in with subliminal messages, messages that tell you to buy more blankets - one for your other couch to match the coloring; one for your boyfriend/girlfriend so you two match while wearing the evil blankets; hell, even one for your dog so they overheat with their fur and blanket.

I, fortunately, have escaped from

the "wonders" of the Snuggie myself, having have been given one by a loving aunt - along with my mother and sister. All three are on the brink of falling to the subliminal messages and buying more and more Snuggies.

The next plan of the Snuggies is a sad, sad one. After taking over the extra blanket industry, they plot to take over normal bedding using similar tactics to the ones used to sell their evil blankets; then moving outward to normal cloth-
