## Companies to Look for At the Career Fair

By Kara Bakowski ~ Daily Bull

The Career Fair is quickly approaching, and chances are you haven't started preparing yet. Don't worry – that's what we're here to help you with. Here are some of the companies you may want to target this year:

**Schlumberger** – You'll get hired to engineer a better burger. Who doesn't want to eat burgers for four straight months? Vegetarians need not apply.

**Barracuda Networks** – If you enjoy both business and helping socially inept, fish, this is the place for you. Working conditions are great, but it's been said that the customers are frequently foreign and terrifying.

**Dominion Resources** – For those wishing to spend their summer gathering the re-

## Vibrams, Those Weird Toe Shoes At Which You Can't Stop Staring

By Alex Dinsmoor ~ Daily Bull

Admit it, you seen someone wearing those toe shoes and you've stared at them for a slightly worrying amount of time trying to figure out why anyone on earth would wear such things. You're not alone; we all have. It just doesn't make sense why anyone would want to walk around in something that makes them look like they have alien feet when a pair of shoes or flip slops are so much more convenient to wear.

Having worn Vibrams for the few months,

I have grown to like and even embrace my "alien feet" and welcome all questions about them, even if they would be uncomfortable to ask. The most common one is "don't they feel really weird or hurt your feet?" The simple answer to that is yes and no. Sure, when I was first walking around in them, I felt and looked like a freak (if you've seen videos of dogs wearing dog shoes for the first time, I looked just like that). You can never prepare yourself for having pieces of fabric surrounding Every. Single. Inch. of your feet after wearing

You can, like, get a pair for every day! Put them on after you eat your vegan, granola-based breakfast and drink your organic, free-trade coffee!

What do you mean, "It's not socially acceptable to be drunk by noon?"

Fill the grid with the digits 1-6 so as not to repeat a digit in any row or column so the digits within each heavily outlined box or boxes (cage) will produce the target number shown in that cage by using the operation (addition, subtraction, multiplication, or division) shown by the symbol after the numeral. For example, the notation 6+ means that the numerals in the cage should add up to 6 and the notation 48x means that by multiplying the numbers in the cage you will get 48.

socks for so long. Once you get used to them it becomes almost like a second skin for your feet, and you'll forget you're wearing them.

OMG guys, these are sooo good for exercising! I just couldn't lift kettle bells until I got my Vibrams!

The worst part about wearing these shoes is feeling feet conscious whenever you walk outside. Such as a terrible car crash, people who see others wearing Vibrams just can't look away. They've been known to cause traffic jams in Fisher due to all of the onlookers. Getting over this feeling of everyone in the world staring at your feet is probably the hardest thing to do, since your friends often give you a hard time about wearing them because they just can't stop staring

sources to start your own dominion on Mars. But hurry – supplies and open territory on the red planet are limited!

**Packaging Corporation of America** – Rather than an internship, you are taken on a relaxing, four-month journey focusing on improving yourself in both mind and body. If you know what I mean ;)

**Performance Software** – Previous work experience at Packaging Corporation of America is required for this job. Performance Software, where your pleasure is our product!

**Cummins Inc.** – Quoted as being the “best place to work ever,” many employees find that they rarely leave the workplace stressed. Hours are flexible and pay is based on performance.

Hopefully this advice has been helpful! Best of luck on Tuesday, and remember to dress for success – so if you're interviewing with any of those last three companies...yeah. 🙄
