Hurricane Sandy Engulfs Greasers on East Coast

By K Like The Letter
~ Daily Bull

Hurricane Sandy is said to be the perfect storm. The largest, maddest, meanest storm since 1991, Hurricane Sandy has raged because she has been lead on one too many times but one too many greasers. The storm is a combination of two different storms known as prepubescent girl, and rebelling pissed off hormonal teenager. Which in case you didn't know compliment one and other like rama lama lama ka dinga da dinga dong, together forever. Like, shoobop sha wadda wadda yippity boom de bop!

She has been spotted over the past few days eating up every man in her way. To make up for lost time she's moving quickly (94 mph) north bound along the East coast. Supposedly preparing for

New "Art" On Campus

By Alec Hamer ~ Daily Bull

In an effort to "make this bitch really, really pretty" you may notice several new pieces of "art" on campus. This art, as it is known, takes on many forms ranging from the benign Shit Harp to the downright outrageous Crack Boulders.

The Shit Harp is a musical instrument. Students of Michigan Technological University are encouraged to drop trou and shit on the instrument. Although this may seem odd to most, the only way the Shit Harp will play its beautiful melodies is if a student defecates on it. "At first it felt really odd" remarked freshman Elizabeth L. "I never thought I would see myself undoing my pants and dropping a deuce

Crack. Made of PURE CRACK. WHAT ARE YOU WAITING FOR

in the middle of campus... Well here we are, AND IT SOUNDS MAGNIFICENT!!!"

It is reported that the Shit Harp sounds like a mixture of all your favorite artists from all your favorite genres. AKA The Boooooooooommmmmmb

Although no couple has been caught making love in front of the sculpture, much speculation has been made regarding such an act occurring. Anyone lucky enough to hear the Shit Harp make music is sure to cum in their pants. "All of the sudden.... I creamed my pants!!" reported one MTU administrator. Seems like local sex parties have found their

Fill the grid with the digits 1-9 so as not to repeat a digit in any row or column so the digits within each heavily outlined box or boxes (cage) will produce the target number shown in that cage by using the operation (addition, subtraction, multiplication, or division) shown by the symbol after the numeral. For example, the notation 6+ means that the numerals in the cage should add up to 6 and the notation 48x means that by multiplying the numbers in the cage you will get 48.

Have you seen the Crack Boulders?? "Crack! CRACK EVERYWHERE!" declared one MTU Provost. "The idea is to attract students who love crack! It's brilliant!! Say you want a fix in the morning or between classes or during class. Just walk up to a boulder and use one of the MTU crack rock ice picks to chip off a new rock!" Although the idea sounds great on paper, it has proved to be anything but. Grades are down to a new all-time-low of a 1.03 GPA for the student body average. Although enrollment is higher than ever, it seems students have just stopped coming to class. One new student declared "You know, I would really like to go to class but... But... There's just so much crack! CRACK EVERYWHERE!"

MTU has started to write apology letters to all family members of student, staff, and faculty. With Crack addiction around 96% it is clear the university needs to do something. As for new art projects, MTU administration wants it

known that any and all new art projects have been cancelled. 🐼

COMPLETELY SARCASTIC NEWS. No, seriously.

By BIG O ~ Daily Bull

Our top story, of today, was that the Libyan Embassy was taken over by armed gunmen. Of course, this should have been expected, but with the scant (See also non-existent) coverage of the Benghazi scandal that broke out almost 2 months ago, it's no wonder people forgot that there are a ton of terrorists in Libya.

Hurricane Sandy continues to ravage the country like a woman who's just found out she's been cheated on. I've heard rumors that a certain state in this union is the REAL Dirty Dan, but for now, only time will tell. Supposedly this is the perfectly storm, the most perfect one since 1991, which then was the most perfect storm since whenever. Seriously, what is a perfect storm? How does one classify a storm as perfect? Is it like what happened in 1991 when three storms came together in a storm orgy that was wet and wild? Or is a perfect storm a Nor'easter that's actually hurricane at it's heart. Come one meteorologist! Make it easy on us! It's already hard enough just wondering what tomorrow's weather is going to be like!

And finally, in other news, Disney bought Star Wars. The reactions have been mostly negative, and if you haven't found out by now, you live under a rock. People are saying Disney will ruin it, but seriously? George Lucas already did the worst. I for one look forward to a world ruled by our Disney Google overlords!. Princess Leia Diaries anyone? 🐼

evacuation, mothers and daughters alike hold their men by the balls and abruptly yell profanities into the calm before the storm as the fear Sandy is coming for them, and soon.

Sandy is said to be overbearing, self-righteous and at the eye of her storm you will find an abundance of Grease lightning. When interviewing the rest of her counter parts the pink ladies we have this quote that leaves us shake in our rain boots..."It's when she hits New York, I'm telling you that's when I'd be scared. She's been eyeing up that bitch Lady Liberty for at best five years..." stated one bas ass sidekick Rizzo.

Sandy rages from the East coast minute by minute. The National Oceanic and Atmospheric Administration said on Friday that wherever the storm comes onshore to be prepared with lubrication and protection as this bitch is truly not messing around. 🐼
