

The Daily Bull is probably not suitable for those under the age of 18 and should not be taken seriously... Like not cleaning your mess!

# The Daily Bull

-like The Onion, but shittier!

It's 0 Days Until our next Midterm

## INTERNSHIP OPPORTUNITY: Blackheart Unlimited

Mindless Corporate Drone #27649709

Department of Defense contractor Blackheart Unlimited is here on campus hiring part time, full time, co-op, and interns for their research and development division. Located in the scenic deepest pit of hell, Blackheart Unlimited's mission statement is to make national defense just that more bloody and inhumane with lucrative DoD projects like the Giant Humanoid Slaughter Drone, Orphan Seeking Missiles, Family Destroyer Gun, and much more! Founded when Lucifer was cast into the pits of Hades, Blackheart Unlimited produces both national and consumer grade instruments of inhumane destruction, serving high end public and private clients like the United States military, Amazon, and the Dark Lord Beelzebub. Blackheart doesn't just make weapons, however, they are on the forefront of computer science research ever since they found out about cyberbullying. Current projects are still classified, however Blackhearts software engineers have invented such computer marvels as "AM from I Have no Mouth and I Must Scream but Real", "Bully-Tron", a computer that can cyberbully up to 10,000 insecure highschoolers at once, and those Captchas that make you select all the pictures with traffic lights in them. To speak about their Anti-Green Initiative is Judge of the Damned and Blackheart COO Anubis.

"Blackheart is committed to preserving the natural hellscape that the earth is destined to become. We hope that our Anti-Green Initiative

will create a world that our grandchildren will be proud to suffer in. That's why for every kilogram of carbon Blackheart emits, we will also dump 10 kilograms of toxic waste into the lakes, rivers, and streams of this planet. We

hope that this will one day atone for the damage we were unable to do before humanity discovered combustion."

Interns can expect to be paid up to 17 dollars an hour along with a generous housing and travel stipend. Full time starting salary is 100 priceless human souls\* a year for mechanical and electrical engineers. Located in the infernally sunny 9th Circle, you will be working in

the middle of a burgeoning culture in America's #1 fastest growing city. Visit the historic downtown, and visit such dazzling establishments like *Hitler's Comedy Club*, or if your hungry, get a table at *Epstein's Bar N' Grill* (I recommend the "Completely Normal Suicide" burger). But Blackheart is more than just a malicious corporation, it's a family. We are committed to creating a perfectly unsafe place where everyone is persecuted equally. The Blackheart campus was rated #1 Most Inaccessible for disabled people 3 years in a row, and you can be sure to expect extreme discrimination against you regardless of your race, nationality, religion, gender, or sexuality. We hope that we can create a world where everyone suffers, and with your help we might be able to get there.

**BLACKHEART: ALL WILL SUFFER.**

\*salary offer does not include the weight of what you've done hanging over you.
