Firing Your Professor: Made Simple!

Former AP CSP student

Have you ever wanted to fire a professor at Michigan Tech for something that may or may not have occurred a year ago, but you don't know where to start? Well, rest assured dear reader, there is now a simple solution to this dilemma, and you can now do it right from your phone with the new "Fire Your Professor" mobile app! Abruptly interrupt your professor's career in just three easy steps:

- (1) Scan the QR Code Below:
- (2) Enter the professor's name, a beverage, and an MTU campus(-ish) location
- (3) Hit the "Fire Your Professor" button!

It really is that simple — try it today! It's free, super easy to use, and totally actually does anything whatsoever*! I promise the QR code isn't a Rick Roll, but that would've been pretty funny — maybe next time...

* Disclaimer: This app does not, in fact, do anything that it's described to do in this article. It does not access email in any way, shape, or form, and it does not send information to anyone, including MTU admin.

(You should try it anyways, though, because it's quite silly)
